About me

I'm a 33yo man, with over 7 years of accumulated healthcare experience in Romania as an orderly, and over 3 years in the UK as a care assistant. I decided to leave the UK due to ongoing political instabilities arising due to Brexit, and pursue my passions and hobbies related to animation, 3d modelling and others.

I've been an online freelancer, creating characters, 3d models and animations on various platforms since 2018.
